

HANNAH HO

Puyallup, WA 98374 | 206-229-1772 | hannahhtn97@gmail.com | <https://github.com/hannahhtn>

OBJECTIVE

Embedded Software Engineer with **1.5 years** of **software development experience** looking to **transition** to a **new career** in **Front End Web Development**. **Hands-on experience** with front-end languages (**HTML, CSS, JavaScript**), frameworks (**React, Bootstrap**), and software development tools (**NodeJS, Babel, Webpack, NPM, Git, GitHub, Jenkins**) by completing **Meta Front-end Web Development courses** and building **web applications projects**. **Seeking** to apply for a **Front-end Developer** role to progress on my software development foundation and assist with projects which enhance web application quality

SKILLS

Experienced using the following programming languages: **HTML, CSS, JavaScript**
Experienced developing front end applications with **React, Bootstrap** and **Milligram**
Experienced using **Jira, Git, GitHub** and **Jenkins** to manage, build, test and complete coding tasks
Experience with common web application development tools such as **Babel, Webpack, NodeJS, NPM**
Experience with React forms (**Formik, React-hook-forms**)
Understanding of **Software Development Life Cycle (SDLC)**
Familiar with **Agile Software Development Processes**
Ability to **work collaboratively** and **communicate effectively with co-workers**
Ability to **adapt to changes quickly, learn and master technology** based tools and **applications**
Excellent verbal and written **communication skills**

PROFESSIONAL ACHIEVEMENTS & EDUCATION

Meta Coursera Certificates in HTML and CSS in depth, Programming with JavaScript, React Basics, and Advanced React (2022 - 2023)

Bachelor of Science: Electrical and Computer Engineering | University of Washington
Seattle, WA (2017 – 2020)

Associate of Science: Engineering | Seattle Central College
Seattle, WA (2014-2016)

PROFESSIONAL DEVELOPMENT PROJECTS

React Recipes App – A food recipe front end application
(Sep 2022 – Nov 2022)

- ❖ Developed using React, HTML, CSS and JavaScript
- ❖ Used a public API to retrieve random food recipes, pictures and ingredients
- ❖ Implemented an keyword/ingredients search option
- ❖ <https://hannahhtn.github.io/recipe-app/>

Tip Calculator – A front end service tip calculator application
(April 2022 – May 2022)

- ❖ Programmed and designed using languages: HTML, CSS, and JavaScript
- ❖ Created an option for tip customization and calculation based upon bill receipt
- ❖ Developed mobile and desktop designs
<https://hannahhtn.github.io/tipcalculator>

WORK HISTORY

Associate Software Engineer | Schweitzer Engineering Lab | 2020 – 2022

- ❖ Participated in the process of software development (developing, testing and deploying software)
- ❖ Developed, reviewed, and tested coding solutions using C, C++, Git, Collaborator, and Cpputest
- ❖ Debugged code and located root causes of problems
- ❖ Contributed to code review and performed automated unit testing to deliver high quality code
- ❖ Prepared and maintained code, design, and test documentation
