

HANNAH HO

Federal Way, WA 98003 | 206-229-1772 | hannahhtn97@gmail.com | <https://github.com/hannahhtn>

OBJECTIVE

Software Developer with a **strong work ethic, trainable and determined mindset**, and **highly motivated** to succeed. **Hands-on experience with front-end languages, libraries, and frameworks** by **completing Meta Front-end Web Development courses** and **implementing web applications** for professional development. Seeking to **apply for a Junior Front-end Developer role** to progress on the software development foundation and assist with projects that will enhance product quality

SKILLS

- Experienced using the following programming languages: **HTML, CSS, JavaScript**
- Experienced developing front end applications with **React, Bootstrap** and **Milligram**
- Experience with **Responsive Web design** and **Cross Browser compatibility**
- Experienced using **Jira, Git, GitHub** and **Jenkins** to manage, build, test and complete coding tasks
- Experience with common front-end development tools such as **Babel, Webpack, NPM**, etc.
- Experience working on **Mac** and **Windows** platforms
- Familiar with **Agile Software Development Processes**
- Ability to **work collaboratively** and **communicate effectively with co-workers**
- Ability to **adapt to changes quickly, learn and master technology** based tools and **applications**
- **Excellent** verbal and written **communication skills**

PROFESSIONAL ACHIEVEMENTS & EDUCATION

Meta Coursera Certificates in HTML and CSS in depth, Programming with JavaScript, React Basics, and Advanced React (2022 – 2023)

Bachelor of Science: Electrical and Computer Engineering University of Washington
Seattle, WA (2017 – 2020)

Associate of Science: Engineering Seattle Central College
Seattle, WA (2014 – 2016)

PROFESSIONAL DEVELOPMENT PROJECTS

React Recipes App – *A food recipes front end application*
(Sep 2022 – Nov 2022)

- Developed using React, HTML, CSS and JavaScript
- Used an open-source API to retrieve random food recipes, pictures and ingredients
- Implemented an keyword/ingredients search option
- <https://hannahhtn.github.io/recipe-app/>

Tip Calculator – *A front end service tip calculator application*
(April 2022 – May 2022)

- Programmed and designed using languages: HTML, CSS and JavaScript
- Created an option for tip customization and calculation based upon bill receipt
- Developed mobile and desktop designs
- <https://hannahhtn.github.io/tipcalculator>

WORK HISTORY

Associate Software Engineer | Schweitzer Engineering Lab | 2020 – 2022

- Participated in the process of software development (developing, testing and deploying software)
- Debugged code and located root causes of problems
- Contributed to code review and performed automated unit testing to deliver high quality code
- Prepared and maintained code, design, and test documentation
